

Daily Site Inspection

Part 1 – Crew & Work Scope

Project: _____

Project Number: _____

Prime Contractor: _____

Location: _____

Date: _____

Time: _____

Inspector: _____

Supervisor / Foreman: _____

Weather Conditions

☐ Clear

☐ Rain

☐ Snow

☐ High Wind

☐ Fog

☐ Extreme Heat

☐ Other: _____

Today's Work Activities

- ☐ Tower Crane Operations
- ☐ Mobile Crane Operations
- ☐ Rigging
- ☐ Formwork
- ☐ Decking
- ☐ Concrete Pour
- ☐ Climbing System
- ☐ Jump Form
- ☐ Stripping Forms
- ☐ Material Handling
- ☐ Personnel Platform
- ☐ Hoisting
- ☐ Welding
- ☐ Cutting / Grinding
- ☐ Excavation
- ☐ Other: _____

Crew Information

Number of Workers: _____

Tower Crane Operators: _____

Riggers / Signal Persons: _____

Carpenters: _____

Labourers: _____

Concrete Crew: _____

Visitors on Site: _____

Subcontractors Working Nearby:

High-Risk Activities Today

☐ Critical Lift

☐ Blind Lift

☐ Tandem Lift

☐ Work Near Power Lines

☐ Suspended Personnel Platform

☐ Fall Hazard (>3 m / 10 ft)

☐ Concrete Pour

☐ Heavy Equipment Interaction

☐ Public Exposure

☐ Confined Space

☐ Hot Work

☐ High Winds

☐ Other: _____

Overall Work Scope

Daily Site Inspection

Part 2 – Morning Readiness

Objective: Confirm the crew, equipment, documentation, and work area are ready before work begins.

2.1 Daily Safety Planning

Item	Yes	No	N/A	Comments
Daily FLHA completed before work	☐	☐	☐	
FLHA reviewed with all crew members	☐	☐	☐	
Today's work scope discussed	☐	☐	☐	
New hazards identified	☐	☐	☐	
Hazard controls understood	☐	☐	☐	
Workers signed the FLHA	☐	☐	☐	

2.2 Toolbox Meeting

Item	Yes	No	N/A	Comments
Toolbox meeting completed	☐	☐	☐	
Attendance recorded	☐	☐	☐	
Incidents or lessons learned discussed	☐	☐	☐	
Weather reviewed	☐	☐	☐	
Emergency procedures reviewed (if required)	☐	☐	☐	

2.3 Worker Readiness

Item	Yes	No	N/A	Comments
All workers fit for duty	☐	☐	☐	
New workers oriented	☐	☐	☐	
Required certifications verified	☐	☐	☐	
Workers competent for assigned tasks	☐	☐	☐	
Required PPE available and inspected	☐	☐	☐	

2.4 Documentation

Item	Yes	No	N/A	Comments
Safe Work Procedures available	☐	☐	☐	
Lift Plan available (if required)	☐	☐	☐	
Engineered drawings available	☐	☐	☐	

Manufacturer instructions available	☐	☐	☐
Required permits in place	☐	☐	☐

2.5 Site Readiness

Item	Yes	No	N/A	Comments
Work area inspected	☐	☐	☐	
Access routes clear	☐	☐	☐	
Emergency access maintained	☐	☐	☐	
Housekeeping acceptable	☐	☐	☐	
Lighting adequate	☐	☐	☐	
Weather suitable for planned work	☐	☐	☐	

Morning Readiness Assessment

- ☐ Crew ready to begin work
- ☐ Minor deficiencies corrected before start-up
- ☐ Work delayed until deficiencies corrected
- ☐ Work stopped pending corrective action

Deficiencies Identified Before Start-Up

Corrective Actions Completed

Supervisor Initials: _____

Time Work Authorized to Begin: _____

Daily Site Inspection

Part 3 – Crane & Rigging Readiness

Objective: Verify the crane, rigging equipment, personnel, communication systems, and lifting operations are ready before any lift begins.

3.1 Crane Readiness

Item	Yes	No	N/A	Comments
Daily crane inspection completed	☐	☐	☐	
Crane safe for operation	☐	☐	☐	
Operator certificate verified	☐	☐	☐	
Operator fit for duty	☐	☐	☐	
Wind speed within limits	☐	☐	☐	

Anti-collision / zoning operational (if applicable)	☐	☐	☐
Crane logbook current	☐	☐	☐
No outstanding crane deficiencies	☐	☐	☐

3.2 Rigging Equipment

Item	Yes	No	N/A	Comments
Slings inspected before use	☐	☐	☐	
Shackles inspected	☐	☐	☐	
Hooks inspected	☐	☐	☐	
Lifting beams inspected (if used)	☐	☐	☐	
Rigging free of damage	☐	☐	☐	
Defective rigging removed from service	☐	☐	☐	
Rigging suitable for planned lifts	☐	☐	☐	

3.3 Lift Planning

Item	Yes	No	N/A	Comments
Load weight verified	☐	☐	☐	
Centre of gravity identified	☐	☐	☐	
Rigging method reviewed	☐	☐	☐	
Landing area prepared	☐	☐	☐	
Lift path clear	☐	☐	☐	
Blind lifts planned	☐	☐	☐	

Critical lift plan completed (if required)

☐ ☐ ☐

3.4 Communication

Item	Yes	No	N/A	Comments
Designated signal person assigned	☐	☐	☐	
Radio communication tested	☐	☐	☐	
Standard signals understood	☐	☐	☐	
Backup communication established	☐	☐	☐	
All workers understand lift sequence	☐	☐	☐	

3.5 Lift Area

Item	Yes	No	N/A	Comments
Exclusion zone established	☐	☐	☐	
Barricades installed	☐	☐	☐	
Workers clear of suspended loads	☐	☐	☐	
Public protected from lifting operations	☐	☐	☐	
Overhead obstructions identified	☐	☐	☐	
Power line clearances maintained	☐	☐	☐	

3.6 High-Risk Lifting

Check all that apply:

- ☐ Critical Lift
- ☐ Blind Lift
- ☐ Multi-Crane Lift
- ☐ Personnel Platform
- ☐ Heavy Structural Pick
- ☐ Concrete Bucket
- ☐ Rebar Bundle
- ☐ Formwork Gang
- ☐ Flying Table
- ☐ Climbing Form
- ☐ Other: _____

Crane & Rigging Deficiencies

Corrective Actions Taken

Crane Ready for Lifting Operations

☐ Yes

☐ No

Supervisor Initials: _____

Time: _____

Daily Site Inspection

Part 4 – Formwork & Concrete Operations

Objective: Verify that formwork systems, falsework, decking operations, concrete placement activities, and climbing systems are safe before work begins.

4.1 Formwork Readiness

Item	Yes	No	N/A	Comments
Engineered drawings available on site	☐	☐	☐	
Formwork erected per drawings	☐	☐	☐	
Bracing complete	☐	☐	☐	
Connections secure	☐	☐	☐	
Formwork inspected before use	☐	☐	☐	
No damaged components observed	☐	☐	☐	

4.2 Falsework & Reshoring

Item	Yes	No	N/A	Comments
------	-----	----	-----	----------

Falsework installed correctly	☐	☐	☐
Base plates properly supported	☐	☐	☐
Shores plumb and secure	☐	☐	☐
Reshoring installed where required	☐	☐	☐
Components free from damage	☐	☐	☐
Unauthorized modifications not observed	☐	☐	☐

4.3 Decking Operations

Item	Yes	No	N/A	Comments
Deck free from unnecessary materials	☐	☐	☐	
Openings protected	☐	☐	☐	
Guardrails complete	☐	☐	☐	
Access ladders installed	☐	☐	☐	
Work platforms stable	☐	☐	☐	
Material staging areas organized	☐	☐	☐	

4.4 Concrete Pour Readiness

Item	Yes	No	N/A	Comments
Pour sequence reviewed	☐	☐	☐	
Formwork inspected prior to pour	☐	☐	☐	
Bracing verified	☐	☐	☐	
Concrete pump location safe	☐	☐	☐	
Concrete bucket inspected (if used)	☐	☐	☐	

Vibrators inspected	☐	☐	☐
Crew understands emergency procedures	☐	☐	☐

4.5 Climbing Systems (If Applicable)

Item	Yes	No	N/A	Comments
Climbing plan reviewed	☐	☐	☐	
Climbing equipment inspected	☐	☐	☐	
Anchors installed correctly	☐	☐	☐	
Climbing brackets secure	☐	☐	☐	
Working platforms complete	☐	☐	☐	
Fall protection in place	☐	☐	☐	
Exclusion zone established	☐	☐	☐	

4.6 Material Handling

Item	Yes	No	N/A	Comments
Gang forms stored safely	☐	☐	☐	
Form panels secured	☐	☐	☐	
Rebar bundles stable	☐	☐	☐	
Materials stacked safely	☐	☐	☐	
Crane picks planned	☐	☐	☐	
Landing areas clear	☐	☐	☐	

4.7 High-Risk Activities

Check all that apply:

- ☐ Concrete Pour
- ☐ Gang Form Fly
- ☐ Flying Table
- ☐ Doka Climbing System
- ☐ PERI Climbing System
- ☐ EFCO Climbing System
- ☐ Strip & Reset
- ☐ Decking
- ☐ Reshoring
- ☐ Heavy Formwork Picks
- ☐ Other: _____

Deficiencies Identified

Corrective Actions Taken

Formwork Operations Ready to Proceed

☐ Yes

☐ No

Supervisor Initials: _____

Time: _____

Daily Site Inspection

Part 4 – Formwork & Concrete Operations

Objective: Verify that formwork systems, falsework, decking operations, concrete placement activities, and climbing systems are safe before work begins.

4.1 Formwork Readiness

Item	Yes	No	N/A	Comments
Engineered drawings available on site	☐	☐	☐	
Formwork erected per drawings	☐	☐	☐	
Bracing complete	☐	☐	☐	
Connections secure	☐	☐	☐	
Formwork inspected before use	☐	☐	☐	
No damaged components observed	☐	☐	☐	

4.2 Falsework & Reshoring

Item	Yes	No	N/A	Comments
Falsework installed correctly	☐	☐	☐	
Base plates properly supported	☐	☐	☐	
Shores plumb and secure	☐	☐	☐	
Reshoring installed where required	☐	☐	☐	
Components free from damage	☐	☐	☐	
Unauthorized modifications not observed	☐	☐	☐	

4.3 Decking Operations

Item	Yes	No	N/A	Comments
Deck free from unnecessary materials	☐	☐	☐	
Openings protected	☐	☐	☐	
Guardrails complete	☐	☐	☐	
Access ladders installed	☐	☐	☐	
Work platforms stable	☐	☐	☐	
Material staging areas organized	☐	☐	☐	

4.4 Concrete Pour Readiness

Item	Yes	No	N/A	Comments
Pour sequence reviewed	☐	☐	☐	
Formwork inspected prior to pour	☐	☐	☐	

Bracing verified	☐	☐	☐
Concrete pump location safe	☐	☐	☐
Concrete bucket inspected (if used)	☐	☐	☐
Vibrators inspected	☐	☐	☐
Crew understands emergency procedures	☐	☐	☐

4.5 Climbing Systems (If Applicable)

Item	Yes	No	N/A	Comments
Climbing plan reviewed	☐	☐	☐	
Climbing equipment inspected	☐	☐	☐	
Anchors installed correctly	☐	☐	☐	
Climbing brackets secure	☐	☐	☐	
Working platforms complete	☐	☐	☐	
Fall protection in place	☐	☐	☐	
Exclusion zone established	☐	☐	☐	

4.6 Material Handling

Item	Yes	No	N/A	Comments
Gang forms stored safely	☐	☐	☐	
Form panels secured	☐	☐	☐	
Rebar bundles stable	☐	☐	☐	
Materials stacked safely	☐	☐	☐	

Crane picks planned ☐ ☐ ☐

Landing areas clear ☐ ☐ ☐

4.7 High-Risk Activities

Check all that apply:

☐ Concrete Pour

☐ Gang Form Fly

☐ Flying Table

☐ Doka Climbing System

☐ PERI Climbing System

☐ EFCO Climbing System

☐ Strip & Reset

☐ Decking

☐ Reshoring

☐ Heavy Formwork Picks

☐ Other: _____

Deficiencies Identified

Corrective Actions Taken

Formwork Operations Ready to Proceed

☐ Yes

☐ No

Supervisor Initials: _____

Time: _____

Daily Site Inspection

Part 6 – End-of-Day / Shift Closeout

Objective: Verify that work has been completed safely, the site is left in a safe condition, deficiencies are documented, and the next shift can begin safely.

6.1 Work Completion

Inspection Item	Yes	No	N/A	Comments
Planned work completed safely	☐	☐	☐	
Work area inspected before leaving	☐	☐	☐	
No new hazards created	☐	☐	☐	
Temporary hazards identified and controlled	☐	☐	☐	

Outstanding work communicated ☐ ☐ ☐

6.2 Crane Shutdown

Inspection Item	Yes	No	N/A	Comments
Crane parked in approved position	☐	☐	☐	
Hook raised and secured	☐	☐	☐	
Crane placed in weather vane (tower crane)	☐	☐	☐	
Cab secured	☐	☐	☐	
Power isolated (where required)	☐	☐	☐	
Daily crane deficiencies reported	☐	☐	☐	

6.3 Rigging Equipment

Inspection Item	Yes	No	N/A	Comments
Rigging inspected after use	☐	☐	☐	
Damaged equipment removed from service	☐	☐	☐	
Rigging stored properly	☐	☐	☐	
Shackles and hardware accounted for	☐	☐	☐	
Specialty lifting devices secured	☐	☐	☐	

6.4 Formwork & Concrete

Inspection Item	Yes	No	N/A	Comments
Formwork left stable	☐	☐	☐	

Temporary bracing maintained	☐	☐	☐
Guardrails restored	☐	☐	☐
Openings protected	☐	☐	☐
Materials secured	☐	☐	☐
Climbing systems secured	☐	☐	☐

6.5 Housekeeping

Inspection Item	Yes	No	N/A	Comments
Garbage removed	☐	☐	☐	
Walkways clear	☐	☐	☐	
Trip hazards removed	☐	☐	☐	
Materials stacked safely	☐	☐	☐	
Tools stored properly	☐	☐	☐	
Spill hazards cleaned	☐	☐	☐	

6.6 Deficiencies

Inspection Item	Yes	No	N/A	Comments
Deficiencies documented	☐	☐	☐	
Supervisor notified	☐	☐	☐	
Prime Contractor notified (if required)	☐	☐	☐	
Corrective actions assigned	☐	☐	☐	
Critical hazards eliminated	☐	☐	☐	

Outstanding Hazards for Next Shift

Corrective Actions Required

Item	Responsible	Due Date
------	-------------	----------

Positive Safety Observations

Supervisor Comments

Shift Status

- ☐ Work Completed
- ☐ Work Suspended
- ☐ Area Safe for Next Shift
- ☐ Follow-Up Required Before Work Resumes
