

Internal COR Site Inspection Checklist

Project Information

- Project Name:
- Site Address:
- Date:
- Auditor:
- Superintendent:
- Foreman:
- Weather:
- Number of Workers:
- Work Activities Observed:

1. Management Commitment

- ☐ Supervisor present on site
- ☐ Supervisor actively monitoring work
- ☐ Supervisor correcting unsafe behaviours
- ☐ Safety information posted
- ☐ Workers know who their supervisor is
- ☐ Workers comfortable reporting concerns

Notes:

2. Hazard Identification & Assessment

- ☐ Today's FLHA completed before work
- ☐ FLHA reflects today's work activities
- ☐ New hazards identified as work changes
- ☐ Controls documented
- ☐ Workers understand hazards
- ☐ Workers participated in FLHA

Ask Workers:

- What hazards are you exposed to today?
- What controls are in place?
- Has anything changed today?

Notes:

3. Safe Work Practices & Procedures

- ☐ Workers following Safe Work Practices
- ☐ Workers following Safe Job Procedures
- ☐ Procedures available if required
- ☐ High-risk work follows written procedures

Examples observed:

- ☐ Rigging
- ☐ Crane operations

☐ Fall protection

☐ Lockout

☐ Silica control

☐ Traffic control

Notes:

4. Company Rules

☐ PPE requirements followed

☐ Housekeeping acceptable

☐ Smoking policy followed

☐ Cell phone policy followed

☐ Seat belts being used

☐ No horseplay observed

Notes:

5. Personal Protective Equipment

☐ Hard hats

☐ Safety boots

☐ High visibility clothing

☐ Safety glasses

☐ Gloves

- ☐ Hearing protection
- ☐ Respiratory protection
- ☐ Fall protection
- ☐ Face shields where required

Verify:

- ☐ PPE in good condition
- ☐ Proper fit
- ☐ Damaged PPE removed from service

Notes:

6. Preventive Maintenance

- ☐ Daily equipment inspections completed
- ☐ Equipment in good condition
- ☐ Defective equipment tagged out
- ☐ Maintenance records available
- ☐ Fire extinguishers inspected
- ☐ Ladders inspected
- ☐ Power tools inspected

Notes:

7. Orientation & Training

- ☐ New workers received orientation
- ☐ Required certifications available
- ☐ Operators competent
- ☐ Workers trained for assigned tasks
- ☐ Visitors oriented

Ask Workers:

- When did you receive orientation?
- Have you been trained for today's work?

Notes:

8. Communication

- ☐ Toolbox talk completed
- ☐ Workers aware of current hazards
- ☐ Safety bulletins posted
- ☐ Workers aware of recent incidents
- ☐ Two-way communication observed

Ask Workers:

- What was discussed at the last toolbox meeting?

Notes:

9. Inspections

- ☐ Supervisor inspections completed
- ☐ Previous deficiencies corrected
- ☐ Inspection forms completed properly
- ☐ Deficiencies documented
- ☐ Corrective actions implemented

Notes:

10. Incident Reporting & Investigation

- ☐ Workers know how to report incidents
- ☐ Near misses reported
- ☐ Investigations completed
- ☐ Corrective actions implemented
- ☐ Lessons learned communicated

Ask Workers:

- What would you do if you had a near miss?

Notes:

11. Emergency Preparedness

- ☐ Emergency phone numbers posted

- ☐ Muster point identified
- ☐ First aid station available
- ☐ First aid attendants identified
- ☐ Fire extinguishers accessible
- ☐ Spill kits available
- ☐ Emergency access maintained

Ask Workers:

- Where is the muster point?
- Who is the first aid attendant?

Notes:

12. Records & Documentation

Verify:

- ☐ FLHAs current
- ☐ Toolbox talks current
- ☐ Inspection records current
- ☐ Equipment inspections current
- ☐ Training records current
- ☐ Corrective actions closed
- ☐ Required documents available on site

Notes:

13. Legislative Compliance

Observe compliance with:

- ☐ Fall Protection
- ☐ Crane Operations
- ☐ Rigging
- ☐ Excavations
- ☐ WHMIS
- ☐ Equipment Guarding
- ☐ Traffic Control
- ☐ Mobile Equipment
- ☐ Housekeeping
- ☐ Electrical Safety

Notes:

14. Worker Participation

Ask Workers:

- Who is your Worker Representative?
- How do you report a hazard?
- Do you stop unsafe work?
- Have you raised safety concerns recently?

Verify:

- ☐ Workers involved in safety

☐ Concerns addressed

☐ Safety suggestions encouraged

Notes:

Tower Crane & Rigging Verification

Crane

☐ Daily inspection completed

☐ Operator certified

☐ Crane log current

☐ Wind monitoring in use

☐ Anti-collision functioning (if applicable)

☐ Load chart available

☐ Exclusion zone maintained

☐ No workers beneath suspended loads

☐ Communication effective

☐ Lift Director assigned (where required)

Notes:

Rigging

☐ Rigging inspected

☐ Identification tags legible

- ☐ Shackles acceptable
- ☐ Hooks acceptable
- ☐ Safety latches installed
- ☐ Synthetic slings undamaged
- ☐ Wire rope acceptable
- ☐ Correct hitch used
- ☐ Load balanced
- ☐ Proper edge protection
- ☐ Rigging stored properly

Notes:

Formwork

- ☐ Access safe
- ☐ Guardrails installed
- ☐ Floor openings protected
- ☐ Housekeeping acceptable
- ☐ Formwork braced
- ☐ Temporary stairs secure
- ☐ Fall protection used
- ☐ Materials stored safely

Notes:

Internal Auditor Verification

For every observation, ask:

- ☐ Is it documented?
- ☐ Is it being followed?
- ☐ Do workers understand it?
- ☐ Can supervisors explain it?
- ☐ Is there objective evidence?
- ☐ Have deficiencies been corrected?
- ☐ Is there evidence of continuous improvement?

Corrective Actions

Item	Deficiency	Corrective Action	Responsible Person	Due Date	Completed
------	------------	-------------------	--------------------	----------	-----------

Overall Assessment

Strengths:

Opportunities for Improvement:

Immediate Corrective Actions Required:

Auditor Signature: _____

Supervisor Signature: _____
